We wish you a safe and pleasant stay here at Fjord Base

## At Fjord Base the following rules apply:

	<p><b>Access:</b> The barrier at the entrance of Fjord Base is open on weekdays between 08.00 and 16.00. In the evenings, Saturdays and Sundays the barrier is closed. Companies and personnel which have business at the base will receive an access card. Enquire at Fjord Base AS.</p> <p>There is no access for unauthorised visitors.</p>
	<p><b>Speed limit:</b> At the Fjord Base there is a speed limit of 30 km/h. This limit is because of the outdoor activities and heavy traffic.</p>
	<p><b>Safety equipment:</b> As protective equipment all visitors and people working at Fjord Base, shall as basic use</p> <ul style="list-style-type: none"> <li>- Helmet</li> <li>- Safety shoes</li> <li>- Good visual clothing</li> </ul> <p>Visual clothing is especially important. It must have a strong color with a reflex mark. This can be deviated from some areas.</p> <p>Safety equipment like gloves, coveralls, hearing and eye protection, and breathing apparatus will vary from work operations and work place.</p>
	<p><b>Parking:</b> We request everyone to park at marked areas where it is permitted to park vehicles. On the quay and quay area must parking be reduced to the minimum, so that this is available for fork lifts, cranes, cargo trailers and other vehicles which are used for loading, unloading and transportation.</p>
	<p><b>Handling of machines:</b> At the Fjord Base there is heavy traffic with fork-lifts, trucks with large cargo trailers, trailers, cars and other pedestrians. It is important that vehicles which are used are in proper condition and in accordance with the laws and regulations which apply for that mode of transportation. Drivers of vehicles must have the appropriate certificates for that mode of transport. For example, everyone who drives the fork-lifts in these areas, roads and on the quays should have in addition to fork-lift driver certificate also have a certificate for class B, C or D.</p>
	<p><b>Road closed/detour:</b> In exceptional cases it is necessary to close the road to general traffic. In these cases, the area is closed with barriers and information. The reason for the closures is because the work in process can be dangerous to other traffic (for example, special transport, pipe loading/unloading, etc) So, for your own safety, respect the barrier and use another alternative road to and from your destination.</p>

	<p><b>Waste and environmental protection:</b>  Rubbish should not be dumped in any of the containers at the base, without having an agreement with the company which uses the containers and that dumping can be undertaken.</p> <p>Individual companies on the base must provide handling of their own rubbish. Therefore, all users at the base are encouraged to approved handling of the rubbish.</p> <p>Observations of unlawful dumping of rubbish at the base must be reported to Fjord AS immediately.</p> <p>Fjord Base aims to work our activities without negative effects on our surroundings.</p>
	<p><b>Walkways and quays:</b>  Use walkways where they are.</p> <p>It is limited access to the quay areas during operations. Please contact security if you need access.</p>
	<p><b>Order and tidiness:</b>  It is important to keep a good standard within order, tidiness and cleaning. Everybody is encouraged to good order and tidiness.</p>

## Other valuable information

	<p><b>Industry Safety:</b>  Fjord Base is an industrial safety bound area which has established its own Industry Safety. This includes among others that personnel are organised in special groups which can undertake firefighting, first aid, order and security, technical services and restrict/hinder pollution to the external environment. Industry Safety has equipment and materials (hoses, hosepipes, oil booms, first-aid equipment, rescue basket, etc.) which are ready to be used in the event of an accident.</p>
	<p><b>The Safety Deputy:</b>  The safety deputy is the first link in the safety services and is the workers representative in safety and environment questions. He/She will see that activities are arranged and maintained, and that the work will be undertaken in a way that considers the employees safety, health and welfare. All individual companies at the base have independent responsibility to establish safety services according to the authorities demands.</p>
